

Santosh Kumar Verma

Data Science – Full-Stack & Web3 Developer

Delhi, India | santoshskv2005@gmail.com | +91 77008 07134 | linkedin.com/in/santoshverma77 | santoshverma77.vercel.app

Summary

B.S. Data Science & AI candidate at IIT Madras with hands-on full-stack (MERN, Java Spring Boot) and Web3 experience across 5+ projects. Two-time hackathon winner and Google Student Ambassador who leads technical community and partnership programs for developer communities such as GDG Ranchi.

Education

Indian Institute of Technology, Madras <i>Bachelor of Science, Data Science & Artificial Intelligence</i>	2025 – Present India
S.M. Arya Public School <i>Class XII, Mathematics & Computer Science</i>	2021 – 2023 India

Technical Skills

- **Languages:** Java, JavaScript, HTML/CSS, SQL
- **Frameworks & Stacks:** MERN (MongoDB, Express.js, React, Node.js), Spring Boot, Tailwind CSS, Vite
- **Web3:** Token models, DeFi tooling, NFT infrastructure
- **Tools & Practices:** Git/GitHub, RESTful APIs, JWT Authentication, Data Structures & Algorithms

Experience

Jharkhand Lead <i>TigerGraph</i>	Mar 2026 – Present Jharkhand, India
• Lead regional community initiatives for TigerGraph, driving graph-database awareness and technical outreach across Jharkhand.	
Google Student Ambassador <i>Google</i>	Aug 2025 – Present Delhi, India
• Selected through a competitive national process to represent Google's AI and Gemini initiatives on campus.	
• Planned and hosted AI-focused workshops and hands-on demos, and partnered with college fests, tech clubs, and student communities to drive adoption of Google AI tools.	
Moderator (previously Head of Partnerships & Sponsorship Coordinator) <i>Google Developer Group (GDG) Ranchi</i>	Jul 2025 – Present Ranchi, India
• Core team member organizing developer-focused events; grew sponsor and partner relationships as Head of Partnerships before moving into a community moderation role.	
Java Full Stack Developer – Training Program <i>Zidlo Development</i>	Mar 2025 – Apr 2025 Bengaluru, India
• Completed an intensive full-stack program covering core Java, React/Angular, Spring Boot, MySQL, RESTful API design, Git, and deployment practices.	

Projects

- **Full-Stack Admin Dashboard** – React, Vite, Tailwind CSS, Node.js, Express, MongoDB, JWT Auth. Built an automated project-generation workflow for a full-stack admin dashboard with authenticated access.
- **CodeBerg Technical Proposals** – Authored project proposals for the CodeBerg developer community: *TrustVault* (blockchain/AI evidence platform), *MeetSync AI* (speech-to-text meeting tool), and an *Autonomous AI Coder Agent*.

Additional Leadership & Community Involvement

- **Head of Sponsorship**, DevSphereIndia (Sep 2025 – Present)
- **Event & Sponsorship Coordinator**, Codllers & Genesis (Nov 2025 – Present)
- **Tech Contributor**, Open Source Connect (Jul 2025 – Present)
- **Team Contributor**, GirlScript Summer of Code (Jul 2025 – Present)
- **Member**, Web3JH (Jul 2025 – Present)
- **Marketing Manager**, YRI (Sep – Nov 2025)
- **SIGMA 7.0 Batch** (DSA in Java & Full-Stack Web Development), Apna College (Mar 2025 – Present)

Honors, Awards & Certifications

- **Winner (1st Prize)** – HACKED 3.0 Hackathon
- **2nd Prize** – State-Level Gyan Vigyan Mela (Science Fair)
- **Logistic Legend Award** – DevFest Ranchi 2025
- **Certifications:** Stay Safe Online (SSO) Campaign; Introduction to Image Generation; HTML & CSS Module; Deep Dive into AI & ML
